Hi Tom,

Sorry to get back with you so late. Thanks for sending this out. I also wasn't aware of the July 24th date, so I appreciate you letting us know Tom. If you would like to have a conference call, I'd be available the afternoon of the 10th, anytime on the 11th, the afternoon of the 12th and anytime the 13th.

I'm still trying to gather some additional information on the OCSRRS. I realize that the OCSRRS is a qualitative fate and transport model to gauge higher vs. lower risk sites. Are there any technical documents that describe how the model was created? I'm trying to figure out what the underlying assumptions are, or how it came to be. I can't find anything on OGCC's website or any of the other State's referenced by the OCSRRS.

Thanks in advance for any help!

Subject: Pavillion Pit Workgroup Call

Hi Everyone,

I guess our next scheduled Pavillion workgroup public meeting will be taking place in Casper on July 24. I was informed that prior to that public meeting the pit workgroup should hold a call to address concerns from EPA that the WOGCC pit closure requirements may be less strict than WDEQ's requirements.

So, there are only a few days prior to that July 24 meeting that I am available. I am out of the office the week of July 16 and have Commission hearings on July 9-10. So I am available on July 5, 6, 11(morning), 12, or 13. Please respond at let me know if any of the dates I stated are good or bad for each of you and I will get a call set up and provide call in information at that time.

I think the well integrity workgroup will be having a call as well but I don't have any specific information - can't remember if anyone is in both groups?

Thanks,
Tom Kropatsch
